Current Offerings:

Some would question the sanity of even making

a statement so bold as "Prototype Castings in 5 Days". It's a reality here at Invest Cast Inc. From 300 pounds to ounces, our prototype casting technology is unrivaled by our competition. With 9 high tech pattern printers at our disposal, Jeremy is able to utilize the most extensive tool collection ever assembled by any foundry to make projects soar. His very straightforward approach and commitment to his craft is proven every day.

Contact Jeremy today about your project.

Drew Davis

Production Sales Engineer

Current Offerings:

Drew is currently offering 6 week lead times

for production orders and solutions when you're facing line down scenarios. Using all 3 of Invest Cast's investment casting foundries to source your projects, Drew is a master at keeping projects on track. Minneapolis, Dallas and Osceola facilities offer a diversity that allows him to best fit your project to the right location. He's thorough, brutally honest at times, and is committed to giving you real answers to tough problems.

Contact Drew today about your project.
